Student Arrested

Tallahassee- On February 22, a school resource deputy arrested a student for making false 911 calls to the Leon County Sheriff's Office and to the Tallahassee Police Department.

The false 911 calls began on February 19 and ended on February 22. There were 12 calls made during this time frame. During the course of these calls the defendant reportedly said that something was going to happen at Fairview Middle school and that someone had been stabbed at the fair grounds. Law enforcement responded to all of these reports and found no validity to the complaints.

The investigation by school resource deputies led them to a 13 year old male student at Fairview who reportedly admitted to making all of the false 911 calls. The student was subsequently arrested and charged with 12 counts of misuse of the 911 system.
