### Leon County Sheriff's Office Partners with Lamar Advertising

Sheriff Larry Campbell is pleased to announce a newly formed local partnership with Lamar Outdoor Advertising to combat crime in our community and take criminals off our streets. Lamar Advertising has been a leader in community service by assisting local and state law enforcement with Amber and Silver Alerts. Now Lamar Advertising has partnered with the Leon County Sheriff's Office to take criminals off our streets and to assist in locating at risk runaway children and missing adults. Lamar Advertising will use the newest technology in Digital Display Boards to provide current information about violent wanted offenders and missing/endangered children and adults.

Sheriff Larry Campbell said "this partnership with Lamar Outdoor Advertising will enable the Leon County Sheriff's Office to display the picture or description of a wanted criminal in a very short time. As detectives gain evidence such as video surveillance of a violent fugitive, this information can instantly be placed on all of Lamar Advertisings Digital Displays Boards within minutes. Lamar Advertising is providing this community service free of charge and I thank them".

"We feel it is our civic duty to provide this service to law enforcement and the citizens of Leon County. It is our hope that the use of this digital technology will help keep Tallahassee\Leon County safe from criminals or assist in locating missing\endangered persons" said Vice President and General Manager of Lamar Outdoor Advertising of Tallahassee, Loyd Chilree.
