Man Arrested After Selling Stolen Electronics Online

On August 22, 2011, Rick Davis of F4 Tech contacted the Leon County Sheriff's Office in reference to the theft of two handheld computers. Davis reported the computers stolen after discovering them missing from the business inventory. The stolen computers were later located for sale on eBay. Davis orchestrated the purchase of one of the stolen computers and was able to verify it was in fact one of two stolen from his inventory. The eBay account was then traced back to "lsecrease04." Lawrence Secrease was employed at F4 Tech during the time that the computers were stolen.

On August 25, 2011, Property Crimes detectives located Secrease, interviewed him and arrested him after he admitted to his involvement. Secrease was taken to the Leon County Jail.
