SWAT Training Scenario

Tallahassee- The Leon County Sheriff's Office will be conducting scenario based SWAT training Wednesday, March 18th at a local church. The training will begin at 9:00 AM and conclude at 5:00 PM.

The scenario training will be based upon recent events that have occurred around our country. Role players will be used during the training to give the hostage negotiators and SWAT operators realistic challenges to work through.

Sheriff Larry Campbell said "we must stay current in our training to be able to react appropriately and decisively in times of crisis. It seems that with more and more frequency you turn on the news you hear of an attack by a gunman on multiple victims".

Our media outlets are invited to the scenario based training at 11:00 AM. The point of contact on scene is SWAT Commander Gene Revell.

Sgt. Chris Chase, Public Information Office
